

## Product Facts and Features

### SUNLESS GLOW TANNING LOTION

#### **DESCRIPTION:**

Sunless Glow Tanning Lotion, a moisturizing skin conditioning formula, delivers a rich golden natural looking tan in a matter of hours without the harmful effects of the sun.

#### **KEY INGREDIENTS:**

- **Dihydroxyacetone** - a colorless sugar that interacts with the dead cells on the skin's surface to temporarily darken the skin
- **Hyaluronic Acid** - plays a vital role in cell hydration; attracts and binds water to the skin
- **Green Tea Extracts** - natural anti-inflammatory and antioxidant properties to heal and soothe skin

#### **BENEFITS:**

- Safer than outdoor tanning or tanning beds; avoids exposure to sun's UV rays that can cause skin damage and premature wrinkles.
- Easy to apply with a pleasant scent; easily absorbed and dries quickly.
- Requires much less time to achieve a tanned appearance.
- Features a hydrating blend of moisturizers, natural oils and powerful anti-aging ingredients.

#### **APPLICATION:**

To avoid risk of uneven or blotchy results, begin by shaving and then exfoliating with Exfoliating Face and Body Scrub. Dry skin thoroughly. Massage a small amount of Daily Moisturizing Hand & Body Lotion on trouble spots such as knees, elbows, feet or severely dry skin to prevent these areas from 'grabbing' too much color. With latex or vinyl gloves, apply Sunless Glow beginning with the legs, one leg at a time. Spread in a circular motion to avoid streaking. Do not apply to toes, heels or sides of feet. Wait 30 minutes before dressing. To allow thorough penetration, do not bathe or shower for 8 hours after application.

#### **RECOMMENDATIONS & SUGGESTIONS:**

All skin types

- Women: Great addition to body care routine to achieve a natural-looking, healthy tan and glowing skin.
- Men: Excellent for a tanned, summer look all year round.
- Teens: Perfect for special occasions to give your skin a lovely golden tan.
