## FAQs: Ink Glow Tattoo Care Balm

### **Who should use a tattoo balm?**

Anyone with tattooed skin can benefit from using a tattoo balm. It's ideal for those who want to experience immediate and long-term vibrancy, clarity, and overall appearance of their tattoos while keeping their skin soft, moisturized, and comfortable.

### **Why should I use Ink Glow Tattoo Care Balm, and what is it used for?**

Ink Glow Tattoo Care Balm is specially formulated to enhance the vibrancy and clarity of tattooed skin while providing deep moisture and nourishment. It helps support the long-term appearance of tattoos by keeping the skin smooth, hydrated, and protected from dryness and environmental stressors.

### **When should I start using the tattoo balm—right after getting a tattoo or after it heals?**

Wait until your tattooed skin is fully healed—no longer broken, scabbing, or peeling — before applying the balm. Once healed, use it regularly to keep the skin hydrated and help maintain your tattoo's vibrancy over time.

### **How do I apply the balm?**

Apply a thin layer over your tattoo. Gently massage in using circular motions. For best results, use daily.

### **How often should I apply tattoo balm?**

For best results, use Ink Glow Tattoo Lotion first to moisturize clean skin, then apply a thin layer of tattoo balm over your tattoo. Using both daily helps keep your skin hydrated and supports long-term tattoo vibrancy.

### **Can the tattoo balm be used multiple times a day?**

Yes, the tattoo balm can be applied more than once a day if needed. While daily use is typically sufficient, you can reapply as needed to keep tattooed skin feeling hydrated and comfortable.

## FAQs: Ink Glow Tattoo Care Balm

### **Can I use this balm on older tattoos?**

Yes! Ink Glow Tattoo Care Balm works on both new (healed) and older tattoos to boost vibrancy, enhance clarity, and keep skin soft and well-conditioned.

### **Does it leave a greasy residue?**

No. The formula is fast-absorbing and lightweight, leaving your skin feeling smooth without a greasy finish.

### **What makes this balm different from regular moisturizers?**

This balm is specifically formulated with tattooed skin in mind. It includes deeply moisturizing shea, cocoa, and mango seed butters, along with avocado oil to nourish and support healthy-looking skin. It's also enriched with sunflower, coconut, and grape seed oils—each chosen for their ability to hydrate, soften, and help protect tattooed skin from dryness and environmental stressors—making it more targeted and beneficial than a standard moisturizer.

### **Can I use it with other Ink Glow products?**

Yes! For optimal results, we recommend using the balm after applying Ink Glow Hydrating Lotion to maximize moisture and enhance the appearance of your tattoos.

### **What's the difference between tattoo balm and lotion?**

Both are designed for daily use, but they offer different textures and benefits. The Tattoo Lotion is lightweight and fast-absorbing, making it perfect for everyday hydration to keep tattooed skin smooth, comfortable, and vibrant. The Tattoo Balm has a thicker consistency that creates a protective barrier and delivers intense hydration, ideal for targeted care.

### **Can I use tattoo balm in place of my moisturizer?**

No, the tattoo balm is designed to hydrate and enhance the look of tattooed skin, but it doesn't replace Ink Glow Tattoo Lotion. While the balm provides targeted moisture and vibrancy, it's best used along with the lotion for daily hydration and overall tattoo care.

### **Is the balm suitable for sensitive skin?**

Yes, this gentle, plant-based formula contains soothing ingredients like aloe, sunflower oil, and lavender essential oil. If you have sensitive skin, we recommend patch testing before using.

## FAQs: Ink Glow Tattoo Care Balm

### **Will tattoo balm help prevent fading?**

While no product can prevent fading, regular moisturizing and sun protection can help tattooed skin appear more vibrant and healthy-looking over time.

### **Does it have a scent?**

The fragrance of Ink Glow Tattoo Care Balm comes from its natural essential oil ingredients—most notably *Lavandula Officinalis* (Lavender) Essential Oil. This gives the balm a light, soothing, and herbal lavender scent. It's designed to be gentle and calming, making it suitable even for sensitive, tattooed skin.

### **What size is the balm and how long will it last?**

It comes in a 2 FL OZ tube. How long it lasts depends on the size of your tattoo and how often you use it. With daily use on a small-to-medium tattoo, it should last several weeks.

### **Why does this exfoliator feel gritty?**

Those are the natural seeds of the Ecuadorean Ivory Palm (Phytelephas Aequatorialis Seed Powder.) They are the ingredients that cause the physical scrubbing particles derived from natural, green, and eco-friendly materials harvested in sustainable rainforests.

## FAQ: Men's Exfoliating Cleanser

### **Can I shave and exfoliate on the same day?**

For most skin types, you should use an exfoliant before you shave since it'll help remove dead skin cells, dirt, and excess oil from your skin and prep it for shaving. If you have sensitive skin, you may prefer to skip exfoliation the same day you shave.

### **In addition to the Men's Exfoliating Cleanser, what other products should men use for anti-aging?**

L'BRI offers a wide range of anti-aging products. We recommend men begin to use anti-aging products when their skin starts to show signs of laxity, fine lines, wrinkles, and/or dark spots to help maintain the youthful qualities of their skin. These L'BRI products include the Men's Daily Cleanser, a daily moisturizer specific to their skin type, eye care, lip care, serums to address anti-aging concerns, and SPF protection in the sun.

### **Why are the new Men's skin care products for all skin types?**

The L'BRI Men's line was developed to help RESTORE, REVITALIZE, AND RENEW skin. These products were formulated for all skin types since most men's skin types are either normal or combination. If your customer suffers from acne-prone skin or has other concerns, please suggest the skin care products to address those specific concerns.

## FAQ: Perfect Prep Primer

### **What is the difference between a silicone and a silicone-free primer?**

A silicone-free primer is a makeup base formulated without silicone derivatives. Unlike silicone-based primers, which create a smooth surface by filling in pores and fine lines, non-silicone primers rely on alternative ingredients to provide a lightweight, hydrating, breathable base for makeup application to cover and fill pores.

### **What makes the L'BRI Perfect Prep Primer different from other primers?**

This primer contains age-defying ingredients and skin-nourishing extracts that work together to help minimize the appearance of fine lines, wrinkles, and large pores. Ingredients such as Aloe Vera Barbadensis help to soothe and hydrate the skin. Niacinamide (Vitamin B3) helps smooth, brighten, and strengthen skin. Sodium Hyaluronate helps increase skin moisture with water-binding and water-attracting properties. Tocopherol (vitamin E) is an antioxidant that helps neutralize free radicals and protects the skin from premature aging and damage caused by pollution.

### **Why is a primer needed, and who can benefit from this primer?**

Primers help provide a perfect base for applying makeup by minimizing large pores, skin imperfections, and wrinkles, creating a smooth canvas. It helps extend the wear of makeup and control excess shine. Everyone can benefit from using a primer.

### **Is this primer suitable for all skin types and skin conditions?**

This primer is suitable for all skin types, including sensitive, oily, and acne-prone skin.

### **Can this primer be used with the Flawless Finish Liquid Foundation and the Dual Action Foundations?**

Yes, it is appropriate to use with either foundation formula.

### **Can I use sunscreen with this primer?**

Yes, start with your typical skin care routine, then apply the sunscreen, followed by the primer, then proceed with your usual makeup routine, such as foundation, concealer, blush, and any other products you typically use.

### **How do I remove the primer?**

Use the L'BRI Erase Makeup Remover, followed by a L'BRI Cleanser, to effortlessly remove the primer and all makeup.

## FAQ: Renew Facial Exfoliator

### **Who should use Renew Facial Exfoliator?**

Anyone who likes the feel of a gentle yet effective facial exfoliator.

### **What are jojoba esters?**

Jojoba esters are derived from the seeds of the jojoba plant (*Simmondsia chinensis*) and are used for their gentle exfoliating properties.

### **How do jojoba esters exfoliate the skin?**

Jojoba esters are spherical particles that gently buff away dead skin cells and impurities without causing micro tears or irritation. They work by physically sloughing off the outermost layer of dead skin cells, revealing smoother, brighter skin underneath.

### **Can I still use the Exfoliating Face and Body Scrub?**

The Renew Facial Exfoliator replaces the Exfoliating Face and Body Scrub for face exfoliation.

### **Why is this product not appropriate for blemished or acne-prone skin?**

This product could be too stimulating for blemish or acne-prone skin, even with a gentle touch. Over-exfoliating can stimulate, irritate, and potentially worsen blemished or acne-prone skin.

### **Is this exfoliator suitable for use on the eyes and lips?**

No, using this exfoliator on sensitive areas like the eyes and lips is not recommended, as these areas have thinner and more delicate skin. Instead, gently exfoliate the face and neck, avoiding the delicate eye and lip areas.

### **Which should I use, the Rejuvenating Facial Peel or the Renew Facial Exfoliator?**

The Rejuvenating Facial Peel is perfect for individuals with sensitive, blemished, and acne-prone skin or who prefer a gentler exfoliation. The Renew Facial Exfoliator offers a mild physical scrub suitable for most skin types (it is not recommended for blemished or acne-prone skin.) These products can be used together by alternating 2-3 times weekly.

### **How can I tell if I've over-exfoliated?**

Over-exfoliating leads to dry, irritated skin. Jojoba esters in the Renew Facial Exfoliator dissolve while exfoliating, alleviating worry or over-scrubbing. L'BRI suggests using this exfoliator 2-3 times a week.

## FAQ: Renew Facial Exfoliator

**What should I do after removing the Renew Facial Exfoliator?**

Follow your regular day or night-time L'BRI skin care regimen, including freshener/toner, serum (if applicable), eye care, and moisturizer.

**Can the Renew Facial Exfoliator be used on the body?**

It may be used on the body, but we suggest using the Natural Radiance Body Scrub for the body.

**What should I do if the exfoliator gets in my eyes?**

Avoid using the exfoliator near the eye area. If it does get into the eyes, do not rub! Rinse thoroughly with cool water.

**What is the scent, and is it appropriate for someone with sensitivities?**

The scent is light and soothing, with hints of Lemongrass, Geranium, Clary Sage, and Chamomile, and yes, it could be appropriate for those with scent sensitivities.

**Can men use the exfoliator?**

Yes, however, we also have a Men's Exfoliating Cleanser that might be a better fit for the men.
